Mo’s and its ritual as is used in relation to the Dharmapala Dorje Shugdan.

The way to practice decisive divination’s by means of Gyalchen Dorje Shugdan. For practitioners endowed with Samaya, who have received Sogtae (srog gtad) (life entrustment) and made effort in retreat and applied conduct. This text contains the ritual and divination results.

On an excellent cube, made from a precious wood not smaller than 2cm, draw the figures of the letters. Light fragrant incense and put the MO dice in a nice clean bowl, high up on the shrine in front of the Guru’s Yidams and Dharma protectors and cover the bowl up with some clean red cloth or silk. Go for refuge with single pointed requests to the five families of the Dharmapala. After the appropriate prayers whilst focussing and formulating the question in comprehensive way and with a strong trust in de protector cast the dice. The letter showing upwards on the face of the dice after casting, indicates the outcome of the advice and what to do and to avoid.

There are two current text on divination in use and circulation. His Eminence Kyabje Dagom Dorje Chang composed one text, the other was done by Dorje Shugden himself when he spoke through Dulzin Choyang Kuten and composed this one. The both texts are highly accurate.

When Dorje Shugden spoke through Choyang Dulzin Kuten, the session for over two hours. Dorje Shugden gave the direct lineage, oral transmission, and explanation of this text. This text was composed on the spot. It was written down by the scribe in the presence in Dorje Shugden’s peaceful form as Dulzin.

In order to engage in this profound practice of Divination relying on the infallible Dorje Shugden, it is highly recommended:
Receive the empowerment of Tsongkapa called: Je Tse Zin Ma and engage in formal retreat with minimum of 100,000 migtseyma.
No fire puja required.

Receive the initiation of Yamantaka, solitary or 13-Deity is fine, engage in the retreat. Minimum 400,000 heart mantra, and 40,000 other three mantras each. Seal with a sacred pacifying Fire Puja.

Receive Sogtae (life entrustment) of Dorje Shugden, engage in an extended retreat at least 1,000,000 (one million minimum) heart mantra and long mantra 100,000 is ok.
Seal with a sacred Dorje Shugden pacifying Fire puja.

Then upon finishing retreat, request one’s lama permission to start the divinations and can get one’s divination dice consecrated by one’s lama. One should do with the highest of motivations as in Lam Rim Prayers or King of Prayers.

The side benefit would be the ability to divine the future for situations beyond logical thinking or a logical course of action. When one has finished the retreat, received the permission of one’s lama, with a good motivation one may receive questions and proceed to divine to help others.
This practice is not for only high lamas. This is for anyone whom is sincere and does the divinations free of the 8 worldly dharmas as best as you can. The accuracy will depend on your samaya, guru devotion, motivation and ‘upkeep’ of your Dorje Shugden commitments.

Dorje Shugden retreats are to clear obstacles to realizing the real non-dualistic nature of the mind thereby propelling yourself to Liberation. Wisdom is also needed; therefore, it is Manjushri in Lama form-Tsongkapa, Manjushri in Yidam form-Yamantaka and Manjushri in Protector form-Dorje Shugden.

The Gelugs have a saying that we practice Lama Manjushri, Yidam Manjushri and Protector Manjushri. That is to all awaken the Manjushri within us lying dormant for aeons.

LTW
I received the transmission of this MO text in 1988 at Manjushri institute by Gyalchen Dulzin Dorje Shugdan himself, through Choyang Dulzin Kuten whom was at the time a good friend of mine. Later I typed the hand-written text, a translation by David Molk, up and created a proper set text. A need for the MO Dice related to this text composed in 1986, arose. I made a Dice according to the instructions from Sandalwood first for preservation purpose and later to fulfil the need for more Dice.

Lay out of the MO dice and the way the letters are placed on the dice if one folds the lay out together.

The dice can be made from a precious wood, such as Sandal wood or African black wood or any other rare and precious woods as long as the fruits and the sap from the tree is non-poisonous. For example, Hamlock or Yew wood have a poisonous substance in them.
The dice itself measures 2cm to 2.5 cm in square with the letters engraved or carved into it and it should be polished properly. If the dice is to be made from Sandal wood one can use Sandal essential oil mixed with linseed oil and chalk to polish, for any other precious wood, also just use linseed with olive oil and fine chalk. Paint the engraved letter gold after cleaning out the engraved letters.

part two: commentary to the results

It is important to engage with effort in different types of rituals to avert and suppression of enemies and disruptive Spirits (Dra Si Non Pa).
*Practice:* The rituals for dispelling defeat (Pam Tay Kyen Sel) and averting enemies (Dra Dog) in a peaceful manner rather than with a wrathful expression. **Prospects for Loss**
Whether taken by others, oneself powerless, or lost by oneself. Thinking carefully and the use of skilful means it will be all right, but better than that is not seen (or to be expected).

---

**4.KA-MO of middling result for householder and dharma practitioner.**

Ka is generally a Mo of middling result. Such things as revealing the great meaning of Dharma, or teaching the Dharma or taking ordination may be engaged in at the proper time and results will be middling.
*Practice:* Make an effort to do preliminary practices and in making Tsog offerings.

**Prospects for Householders**
Although the home is peaceful, the guardian bears a grudge, or else, after the family members have been disharmonious the guardian deity has been offended, or the regular torma offering may have been missed.
*Practice:* Whatever it is, Do Guru puja Tsog, Tara ritual, recite Samaya Vajra etc. And, furthermore supplicate and make offerings to the protecting deity, the guardian deity.
House site
The residence is, indeed, not good in the long run.
Practice: but if one supplicates the local deities, offers the torma of the four elements (jung tor) etc and if one makes offerings to those worthy of offerings and gifts to those suitable to receive gifts, it will be well.

Prospects for friends
Some type of obstructor has shown its face between friends or relatives.
Practice: In order to avert it, recite Norgyuma’s mantra and supplicate one’s particular deity,
The essence of one’s wealth will increase.
Abandon the desire for desirable objects of different types, and or the wealth about which one has doubts or not yet decided. In order to avert defeat in business through loss from within, recite the mantra of Norgyuma.
Recite the sutra called Entering the Joyful City (Yang Pay Drong Kyer Jug Do). Do the wealth protecting ritual (Yang Kyab), propitiate the protectors and offer torma’s to the Naga’s and torma’s of repayment (Len Tor). Further more, practice generosity and make many offerings as possible.

Prospects for sickness
If the symptoms of a sickness seem severe and look bad, the mo shows that there is nothing wrong or at risk, it just seems bad. If it is a Wind or Phlegm disturbance or a injury through struck without fracture (with fracture and concussion seek medical attention)
Practice: In both situations do Kangso So for the general protectors and Palden Lhamo. Supplicate one’s personal deity. The deity of the country and the deity of one’s birthplace. Wear the White Umbrella Deity’s (Sitatapatra) protection wheel (Dug kar sung dog), offer sang. And make supplication to the protectors. If one suspects one might have harmed a spirit, throw spirit catchers (Do) and effigies (Lu) in that direction.

Prospects for life
